LOCAL VALUE TO CONTRACTORS

Industry Relationships + Education & Training = Success

The San Antonio chapter meetings are held on the second Thursday of each month from 11 am –1 pm. These chapter meetings are attended by local contractor owners & employees, local municipality representatives, plumbing engineers, suppliers, manufacturers, and service providers.

Offering seminars and training programs in such areas as services and repair, small business management, customer service, time management, employee relations, safety concerns, OSHA code, tax issues, computer software, industry technical trainings, blueprint reading, specialty classes, plus more!

Succeed as a Leader in the Industry.
Give back to your Community .
Become a Legacy for others in industry to Emulate!

Be a Professional!

The monthly meetings allow members to speak to city inspectors, enjoy guest speakers and spend some relaxed time with other members of the trade. This is a very valuable networking opportunity for all members!

The PHCC industry relations activities include representing PHC contractors in broad based construction and business community groups and coalitions. We are concerned with employment policy, environmental planning, education and construction health & safety.

The future of our industry is dependent upon well trained PHC Professionals. PHCC provides the tools to succeed.

Membership to PHCC is at three levels: local, state, and national.

This entitles contractors and their employees to discounts on continuing education, special industry classes & certifications, apprentice & journeyman trainings , seminars, scholarships, green resources, print and online periodicals, and so much more at each level.

Join your fellow industry Professionals to make a positive impact on the health, comfort & safety of the environment & society!

Take advantage of management education , business-building networking , become PHCC-branded, participate in enhanced specialty groups within PHCC membership-QSC & CCA.

Legislation: PHCC has an active local, state, and national committee lobbying our representatives and alerting us about issues that affect our industry, such as unfair utility competition and state licensing laws that affect you and your business; monitoring and maintaining contact with city officials for up-to-date code and ordinance compliance. Membership entitles you to receive comprehensive information on a wide range of regulatory issues so you will be able to comply with the latest industry, OSHA, environmental and employment laws.

The PHCC—National Association is the oldest trade association in the construction industry—and the premiere organization for the p-h-c professional. Since 1883, PHCC has been the leader in promotion, advancement, education and training. Today PHCC has more than 4100 contractor members from open and union shops, who work in the residential, commercial, new construction, industrial and service and repair industry segments.
